## World Business Environment Survey Main Questionnaire - Private Sector 1999

Thank you for agreeing to see me.
The purpose of this survey is to better understand constraints that hinder the development of businesses like yours. This study is being conducted for 100 countries by the European Bank for Reconstruction and Development and the World Bank. The initial goal is to better understand conditions for doing business in your country and how they compare to other countries. The ultimate goal of this research is to advise governments on ways to change policies that impose a burden on private firms and to develop new projects and programs that strengthen support for enterprise growth. Your answers should reflect only your perception and experience of doing business in your country.

I would like to assure you, that the information obtained here will be treated strictly anonymously and confidentially. Neither your name nor the name of your firm will be used in any document based on this surveys. Neither the European Bank for Reconstruction and Development nor the World Bank will be informed of any individual firms' responses or participation in this survey.

I'd like to start by asking some more questions about you and this organisation.
